GarageJam

MULTIPLE-LOCATION AUDIO RECORDING

Ole Kristian Aamot | BPROG | 24.01.2024

GarageJam is Free Software in development for musicians who want to compose, record and share original music to the Internet from the GNOME Desktop. The latest release is GarageJam 2.0.0 and supports immediate audio recording in Ogg Vorbis [.ogg] files into the Music/ folder, and generation of XSPF 1.0 playlist of the recorded file in GNOME.xspf into the Music/ folder as well as Metainfo editing in [.gingerblue] XML files into the Music/ folder from a GTK+/GNOME Wizard with support for recording Ogg Vorbis [.ogg] files in the Gingerblue Recording Studio API.

Application Programming Interface

Gingerblue Recording Studio API 8.0
